Weak-neuron removal: A1 vs A2

LLaVA-1.5-7B | MME | All layers

Measured ablation results

	Target 1%	Target 5%	Target 10%	Target 15%	Target 20%
A1 actual	0.999%	4.996%	9.993%	14.998%	19.995%
A2 actual	0.999%	4.996%	9.993%	14.998%	19.995%

Actual = mean selected / total FFN neurons across 1,000 samples.
All targets met; small gaps reflect integer rounding per layer. Y-axis is zoomed.
